FAYVILLE DISPENSARY STANDS

HOUSE SAYS SO BY A VOTE OF FIFTY TO FORTY.

A Bill to Prevent Gambling, Which is Especially Stringent, Passed—Provides that Gambling Shall be a Cause to Forfeit License.

Special Dispatch to The Telegram.

Raleigh, March 2.—Bills were introduced in the Senate to establish dispensaries at Kenly and Mayodan.

There was a discussion of London's bill to amend the constitution by allowing either race to vote a special tax for its own school. The bill was re-referred.

There was a discussion of the bill to prevent gambling, which came up with an unfavorable report. This bill was pronounced extreme, but passed. It is especially severe against gambling in barrooms. It provides that gambling shall be a cause for the revocation of saloon license.

The bill giving Mitchell county a compulsory educational law passed.

The bill to abolish the Fayetteville dispensary was defeated in the House late yesterday afternoon by a vote of 50 to 40. The bill had passed the Senate. But the House voted decisively to let the dispensary stand.

Inauguration Visitors.

By wire to The Telegram.

Washington, March 2.—The city is rapidly filling with visitors in anticipation of the inauguration of William McKinley to succeed himself. The chairman of arrangements estimates that there will be one hundred and twenty thousand strangers in the city by Sunday night.

The Senate adjourned this morning at two o'clock after an all night session.

A Good Entertainment.

The entertainment last night by the ladies at the Academy was one of the best ever given by local talent. The audience was enthusiastic throughout the entire program, and encored every selection. Several of them deserve especial mention. Those engaged in the concert were: Mesdames Claxton, Owens, Brown, Stone, and Banner, and Misses Blalock, Glenn, Stone, Wood and Weatherly.

Dr. J. H. Weaver thanked the audience for its favor. About \$75 were raised.

Dr. Peacock's New Home.

Dr. Dred Peacock, president of the Greensboro Female College, is making extensive alterations and improvements to his recently purchased home opposite the Greensboro Female College campus. He has become so in love with the climate of this section that he contemplates spending nearly the whole year here instead of migrating to some other clime for his summer months as heretofore.

Invitation to Hear Dr. Dinwiddie.

Communicated.

A cordial invitation is extended to the men and women of Greensboro and vicinity to hear the Temperance Lecture to be given by Rev. E. C. Dinwiddie at the court house Sunday at 3 p. m.

As Legislative superintendent of the Anti-Saloon League and Temperance secretary of the Lutheran Synod, Mr. Dinwiddie's ability and fitness for the great work in which he is a leader is unquestionable. He figured conspicuously in securing the passage by the Senate of the recent anti-cantent amendment.

Rev. Mr. Dinwiddie will preach tomorrow evening at the union service of the South Greensboro churches. The service will be held at Westminster Presbyterian church.

Rev. E. C. Dinwiddie spoke in my church. He is a clear, forcible and pleasing speaker, ably presenting the work of the League. No pastor need hesitate for a moment to admit him to his pulpit. What he says is becoming the pulpit and the Sabbath service and is full of the spirit of the Gospel on all questions of right and wrong. I take pleasure in endorsing this work and commending the brethren engaged in it, as I know them.

Respectfully,
T. H. WOODRING, D. D.,
Pastor of First Methodist Episcopal Church,
Washington, Pa., March 9, 1898.

Society Notes.

Miss Marjorie Lyon entertained the Bachelor Girls very charmingly Thursday afternoon at her home on North Elm Street.

Miss Lyon gave her guests the pleasure of a hand at Euchre. Miss Frances O'Brien, Nellie Merrimon, and Walker Fry cut for the prize an exquisite little piece of bric-a-brac. Miss O'Brien was the winner. Miss Merrimon received the consolation, a picture, and Miss Lizzie Leigh Dick, the booby.

Besides the club members present, Miss Lyon included among the guests, Mrs. J. H. Walsh, Mrs. Merrimon, Mrs. Oscar Williams, Mrs. E. A. Holt, Mrs. Morton, and Misses Nellie and Bessie Merrimon.

Miss Lillian Adams entertained the Author Club, and her gentlemen friends Thursday evening at her home on Summit avenue.

Mr. Roland Hill received the first prize, a copy of "Soldier's of Fortune." Mr. Achie Dalton was awarded the consolation, and Mr. Vivian Blackburn the booby.

GUILFORD COUNTY ROAD LAW.

COPY OF THE ACT NOW BEFORE THE LEGISLATURE.

Provides for An Election on Issuing \$300,000 of Road Improvement Bonds—If the Bonds are Voted the County Commissioners Shall Appoint a Highway Commission, Consisting of Six Members, Who Shall Have Full Charge of the Road Work.

The following is the text of the Guilford road law, now before the House, having passed the Senate:

The General Assembly of North Carolina do enact:

Section 1. That the Board of Commissioners of Guilford County be and they are hereby authorized and empowered to submit to the vote of the qualified voters of Guilford county, at such time, as in their discretion, they may deem best, the first election to be held within one year after the passage of this act, the question "shall Guilford county, North Carolina, issue \$300,000 of its bonds, with interest coupons attached, to repair, make, and improve the public roads in said county." Said Board of County Commissioners shall for at least thirty days preceding such election, give public notice of said election, and purpose thereof by publication in one or more newspapers published in said county: Provided, that if a majority of said qualified voters of said county shall not vote to issue bonds at the election so held, the said Board of County Commissioners may submit the said question to the qualified voters thereof at any other time or times under the same rules as are hereinafter provided.

Section 2. That said election shall be held and conducted in the same manner as is now in force or may hereafter be prescribed by law for holding elections for members of the General Assembly, provided, however, that said Board of County Commissioners shall appoint the registrars of election and the judges and inspectors of election and any other election officers, and registration of, and challenge of voters shall be conducted in the same manner as is now provided for the election of members of the General Assembly, or may hereafter be provided; and said County Commissioners may or may not order new registration for said election. The vote shall be counted at the close of the polls and returned to the said Board of County Commissioners on the Thursday next following the election, and said County Commissioners shall tabulate and declare the result of the election, all of which shall be recorded in the minutes of the Board of County Commissioners, and no other recording and declaration of the result of said election shall be necessary.

Section 3. That at said election the ballots tendered and cast by the qualified electors shall have written or printed upon them "For Good Roads" or "Against Good Roads." All qualified electors who favor the issue of said bonds shall vote "For Good Roads." All qualified electors opposed to the issue of said bonds shall vote "Against Good Roads."

Section 4. In the event that the requisite majority of qualified electors of said county shall vote "For Good Roads" at said election, and the result shall be recorded and declared as aforesaid, the Board of Commissioners of Guilford County shall elect six electors, residents of said county, to be known as the Highway Commission of Guilford County. One member thereof shall reside in the northern section of said county, one in the southern section, one in the western section, one in the eastern section, one in the central section, and one from the county at large. At the first election of said Highway Commission by said Commissioners of Guilford County, two members of said Highway Commission shall be elected for two years, two members for four years and two members for six years, provided, that said Board of County Commissioners shall have power to fill all vacancies by death, resignation or otherwise, for any unexpired term, provided further, that at least two members of said Highway Commission shall at all times be from members of a different political party

from that of the majority of said Board of County Commissioners; said two members to be selected from the political party casting the next highest vote to that political party electing the majority of said Board of County Commissioners at the last election held for the election of county officers. That as soon as practicable after the election of said members of the Highway Commission, they shall meet and organize by electing one of their members chairman of said Commission, and another of their members clerk and another or some other suitable person treasurer thereof, and shall pass such rules and regulations for their government as they shall deem best; Provided, that the Highway Commissioners shall take an oath before some person authorized to administer oaths to perform duties of said office to the best of their skill and ability.

Section 5. In the event that the requisite majority of qualified electors of said County shall vote "For Good Roads" at said election and said result shall be declared and recorded as aforesaid, the Board of Commissioners of Guilford County shall have prepared bonds in denomination not exceeding one thousand and not less than one hundred dollars, the total amount to be that provided for in the first section of this act; and the said bonds shall bear interest not exceeding five per cent. per annum, with the interest coupons attached, payable semi-annually on the first day of January and July during the time of their running, and the principal thereof shall be payable or redeemable at such time or times not exceeding thirty years from the date of their issue as the said Board of Commissioners of Guilford County may determine. Said bonds and coupons shall be payable at the office of the Treasurer of Guilford County, North Carolina. Said bonds and coupons shall be signed by the Chairman of the said Board of County Commissioners, and countersigned by the Clerk of said Board, and said bonds shall have upon them the seal of said County. The said bonds shall be styled "Guilford County Highway Improvement Bonds."

Section 6. Immediately upon the preparation and signing of said bonds the said Board of Commissioners of Guilford County shall turn over to the Chairman of the Highway Commission all of said bonds without the County seal having been affixed, and said Highway Commission shall have the power to advertise and sell any or all of said bonds at such time or times as they shall deem best, for the purpose of raising a fund with which to repair, make, and improve the public highways of said County as aforesaid: the expense of said advertising and selling, or any other necessary expenses in regard thereto, shall be paid out of the taxes levied for road purposes for the previous year by the Board of County Commissioners, and collected by the sheriff of said County.

Provided, that before delivering any of said bonds, sold by the provisions of this section and under this "Act," the Chairman of the Highway Commission shall apply to the custodian of the seal of Guilford County, whose duty it shall be to affix the said County seal to the bond or bonds so sold and no bond shall be of any value until said seal is so affixed.

Section 7. That none of the bonds authorized by this Act shall be disposed of by sale, exchange or otherwise for less price than their face value, nor shall said bonds or other proceeds be used for any other purpose or purposes than those declared by this Act. When said bonds are issued they shall be numbered consecutively and the coupons attached and issued with them shall bear the number of the bonds to which they are attached. The bonds and coupons shall state on their face when they are due and where payable, and said bonds shall show by what authority they are issued. The said Highway Commission shall record all their proceedings in respect to said bonds in the minutes of their meetings, and when any of the same are sold, the number, bond, their denomination, to whom sold, and the number of coupons attached must be recorded in

said minutes, provided, that the minute book and all other books kept by the Highway Commission shall at all times be open to the inspection of the Commissioners of Guilford County.

Section 8. When any of said bonds are sold, the proceeds of sale shall be turned over to the Treasurer of the Highway Commission, who shall keep said funds and all other funds provided for in this Act, which may come into his hands, separate from all other funds, and he shall keep separate accounts of same, and said Treasurer, before any fund provided for in this Act shall be paid over to him, shall execute an official bond, payable to the County of Guilford in the usual manner, equal to the greatest amount which may at any time come into his hands by reason of this Act, conditioned for his faithful, safe keeping of the same, and rendering a due account in respect thereto, and in all things holding, dispensing and accounting for the same as is required by law, which bonds shall be passed upon, accepted and received by said Highway Commission, and all orders directed to said Treasurer for the payment of money under this Act, shall state on their face that they are highway orders, and to what account they are chargeable, and shall be signed by the Chairman and Clerk of said Highway Commission.

Section 9. That in case the said election shall be in favor of issuing bonds as aforesaid, the said Board of Commissioners of Guilford County shall levy annually the first Monday in June, a separate road tax for said County, of not exceeding fifteen cents on the one hundred dollars worth of property nor exceeding forty-five cents on each poll and not less than twelve and one-third cents on the one hundred dollars worth of property and thirty-seven cents on the poll, the subjects of taxation and levying of taxes to be the same on which the said Board of County Commissioners now or may hereafter be authorized to levy taxes upon for general County purposes. The taxes so levied shall be collected as other taxes, and the same shall be a separate fund applied first to the payment of interest of said bonds and next to the creation of a sinking fund for the redemption of said bonds, said sinking fund to be placed in the hands of a sinking fund Commissioner, elected by the Board of County Commissioners, and said sinking fund Commissioner to be required to execute a bond every two years payable to the County of Guilford in such sums as the Board of County Commissioners may determine, provided, that said bonds shall never be less than fifty per cent. greater than the amount in his hands and supposed to come into his hands during the time covered by said bonds. The term of office of said sinking fund Commissioner shall be for ten years, and the commission allowed for the services of said Commissioner shall not exceed one per cent. of the amount which may come into his hands. The duties of said sinking fund Commissioner shall be to care for and invest the amounts which may come into his hands, so that the same may increase as fast as possible, and to turn over to his successor the amount which may come into his hands either principal or interest during his term of office. That said sinking fund Commissioner shall make an annual statement (and often if deemed necessary by the Board of Commissioners of Guilford County) of all moneys coming into his hands, the manner of their investment and the interest received thereon to the Board of Commissioners of Guilford County: Provided further, That in case of the bonds issued under and by authority of this Act become due during the term of said sinking fund Commissioner, the said Board of Commissioners shall have power to require him (and it shall be his duty) to turn over to the County Treasurer a sum sufficient to meet the payment of such bonds.

Section 10. That the said Highway Commission shall use the funds derived from the sale of said bonds for the purpose of constructing and improving the public highways in the said County, and for said purposes.

HORRIBLE STATE OF AFFAIRS IN S. C.

Columbia, S. C., Feb. 27.—For several days the grand jury of Anderson county has been working under orders from the court, and when the true facts of the slavery conditions are made known, it is said that the disclosures will be sensational beyond description.

Judge Benet's charge has aroused the State. He talks so plainly that the grand jury was forced to begin an investigation; and when it makes its presentation to the special term of the court on March 7th, it is believed that there will be some facts made public which will cause great excitement and indignation. According to current reports, many people, high in authority, will be exposed in the presentments and will be exposed to very serious charges.

The convict lease system in Anderson county is known to be a cloak for many evil transactions, and it is said that these conditions exist.

The case which brought to light the slavery conditions was that against J. S. Newell for killing Will Hull, a negro. Newell had shot, it was declared, Hull while the latter was attempting to escape from Newell's stockade. Investigation developed the fact that while Newell leased State convicts, no record of the conviction of Hull could be found.

Judge Benet made an investigation and made this statement to the grand jury:

"It seems that Hull was charged by Newell with the violation of a labor contract; that Newell swore out a warrant for his arrest before Magistrate James J. Gilmer; that the magistrate issued the warrant and placed it in the hands of Newell as a deputy, and that Newell went to the home of Hull and arrested him.

"It appears that they did not take him to jail, and, so far as the testimony shows, that was the end of the process of law. Instead of his being taken to jail, by some strange procedure he was taken to Newell's stockade, where, it seems, Newell had some eighteen convicts at work.

"So, gentlemen, here was a poor negro taken from his wife and children under a pretext of arrest. The machinery of the law was used to seize him, take him from his home and put him in a convict stockade, and work him like a convict without process of law.

"The testimony showed that he was treated like a convict, made to labor like a convict, and, indeed, the manner so his death would seem to indicate that he was shot as a felon might be in endeavoring to escape the sentence of the law."

Facts about the labor contracts also came out. These contracts are made out in regular form, and in them the laborer agrees to do general farm work under his employer or his agent for a number of years.

It is stated further that the laborer is "at all times to be subject to the orders and commands of his employer," who "shall have the right to use such force as he or his agent shall deem necessary to require me to remain on his farm," and "shall have the right to lock me up for safe-keeping, and if I should leave his farm or run away he shall have the right to offer a reward for my capture," the negro subsequently "working out" the amount of this reward.

More startling still is the declaration that the employer "shall have the right to dispose of his rights under this contract to another," thus virtually giving him all the power he would exercise were the negro actually his slave.

In his charge to the jury Judge Benet said that the stockade system had to be investigated. Under an old system convicts from the State penitentiary are leased to individuals for farm and railroad work, and barracks are built, where the prisoners are confined, according to current reports. The men who hired the prisoners went a step further, however, and, under a special form of contract, forced negroes to give up their liberty for a certain term of years and enter the stockades, where they were guarded and informed that they would be shot if any attempt was made to escape.

SATURDAY, MARCH 2.

A Wilson delegation, composed of F. E. Woodard, F. W. Barnes, J. P. Burton, E. P. Mangum, Prof. Kinsey and others, came here today to go before the House committee on education regarding the bill to establish at that town a State Normal and Industrial College like that at Greensboro. They say they want only \$5,000 appropriation and will give Prof. Kinsey's college building—Raleigh Correspondence of the Charlotte Observer.

If this Legislature caps the climax of its series of follies by passing a law decentralizing its educational work for women by scattering out its appropriations to every neighborhood that asks for these appropriations, it is well that its time has about expired and the people may have another turn.

Charlotte has made a splendid philanthropic step. It has opened a nursery at which mothers of little children may place the little tots in safety during the hours of their daily toil for bread. It is an act of sweet charity well bestowed. It is said to be the only institution of the kind in the State. All honor to the backers of the scheme.—Concord Standard.

We are delighted to see this, and have been noticing with pleasure the announcement. There are numberless ways in which practical charity may manifest itself, at little expense, and which are bountiful in their help to those who need it, especially the children.

The proposed road act for this county appears to us to be about as near the proper thing as could be gotten out. There should be no objection to its adoption by the people of the county.

There can be no doubt of the correctness of the demands made by the bar of this city yesterday in saying that twelve weeks of court are not enough for this county.

GUILFORD COUNTY ROAD LAW.

(Continued from third page.)

and north-west, but no one of these highways shall have more than four miles of macadam laid under this Act until all are macadamized as near the same distance as is practicable and then these same highways shall be macadamized not exceeding four miles further out and so on towards the County line, treating each section of the County with equal justice; Provided further, they may have power to put no more than one-third of the working force in other parts of the County, for a part of the time, if in their judgment they deem it wise and necessary to equalize the benefits to all sections. Said Highway Superintendent shall have control over and direct the working of the convicts in Guilford County, and shall also have control over and direct all other labor as may be deemed by the Highway Commission proper to be employed on said roads, and to be paid for out of funds herein provided. It shall be his duty to employ the overseers of the chain gang or the convict forces, and such other forces as it may be deemed by the Highway Commission, expedient to employ, and the necessary servants and guards for the working and caring for the convicts worked under and by authority of law. He shall prescribe the duties of the overseers, and may discharge them at any time for cause; all of which duties of said Highway Superintendent shall be subject to the approval of the Highway Commission.

Section 13. That said Highway Commission shall require the Treasurer of said Commission to account to them twice annually for the said highway fund, and may require as often as deemed best, reports from officers and employees concerning their progress in their duties, and to what extent and in what manner they have performed the same.

Section 14. That in opening new highways, widening and straightening old roads and repairing the same, the Highway Commission, through their agents, are hereby authorized to enter upon any land and locate and build such highways, and if the Highway Commission and the owner or owners of said land cannot agree as to the damages, if any, the Highway Commission, shall, within sixty days after said highway is completed, cause to have summoned five freeholders who shall go upon the land and assess damages and benefits under the general road law as it now exists: Provided, further, That before entering upon land as authorized by this section, it shall be the duty of the Highway Commission to serve notice upon the owner or owners of said land, notifying said owner or owners that the highways would be located upon such land under the authority of this Act.

Section 15. That the passage of this Act shall not repeal the road law in force, applicable to the general working of public roads in said County, except that the supervisor working and keeping in repair the highways constructed or improved under the provisions of this Act, shall at all times be under the direction of the said Highway Superintendent. Any supervisor refusing to act in response to said rules, as said Highway Superintendent shall direct, shall be guilty of a misdemeanor, provided that all persons who are required to work under the road law now in force, shall not be required to work in direct contact with persons who have been convicted of crime and sentenced to the roads: Provided, also, that the Board of Commissioners of Guilford County shall not be required hereafter to levy other taxes for road purposes than that provided for in this Act.

Section 16. That said Highway Commission shall have authority to employ a physician at any time to assist the County physician to attend to the convicts working the public highways, and shall also have power to provide for the care and keeping of said convicts, and to provide all things necessary to carry into effect the provisions of this Act.

Section 17. That said Highway Commission shall be entitled to the same per diem and mileage as the Board of Commissioners of Guilford County.

Section 18. That said Highway Superintendent provided for in this Act, shall have the care and charge of all tools and appliances, shall make an inventory of the same, and furnish said inventory to the Highway Commission, and shall look after the safety of all such tools, machinery and appliances, and the said superintendent shall be responsible for the loss of the same resulting from carelessness or neglect.

Section 19. That the Board of Commissioners of Guilford County shall audit the accounts of the sheriff for all taxes levied and collected under this Act, and make settlement of of the same between said sheriff and County Treasurer, and said Board of County Commissioners may institute and prosecute any necessary action for the recovery of any such road taxes in case any officer fail to account for same.

Section 20. That any Highway Commissioner or Superintendent making or causing to be made any fraudulent order whereby money is to be paid out of said Highway Fund herein provided for, shall be guilty of a misdemeanor, and fined or imprisoned at the discretion of the court, or both, and shall be removed from office, and any Highway Commissioner or Superintendent failing or refusing to perform the duties imposed by this Act shall be guilty of a misdemeanor and fined not less than \$20 or more than \$100: Provided, further, the Board of County Commissioners may, for good and sufficient cause, remove any one or more of the Highway Commissioners, and the vacancy or vacancies shall be filled as provided in this act for filling vacancies from other causes.

Section 21. That all expenses incurred by the Highway Commission on account of meetings held by reason of duties imposed by this Act, shall be paid upon their order, out of the funds provided for by this Act.

Section 22. The term "Highway" in this Act shall be understood to mean all public roads macadamized or improved under the provisions of this Act, as distinguished from other public roads in the County.

Section 23. The Highway Commission shall not use more than the proceeds from the sale of fifty thousand dollars worth of bonds in any one

year, over and above the amount paid for machinery, implements and mules, except by a two-third vote in a joint meeting of the Highway Commission and the County Commissioners.

Section 24. This Act shall be in force from and after its ratification.

FORCE OF CHARACTER.

BY SHAWEN.

Men can be judged only by the results which they accomplish. The world has no time to devote to the study of particular men behind the results of their labor, except in the study of the few men of extraordinary prominence—a biographical study rather than psychological scrutiny. Behind every material accomplishment the potential factor of that accomplishment is character. This fact would be of large value to young men if character were more readily discernable in its true reach and compass. Unfortunately, in strong men character is not near enough the surface to be thoroughly discerned in the many whose deeds interest us, but whose personalities escape our knowledge. In this way young men find their reliance on the value of character confined too narrowly to historical personages and contemporary public men who can with difficulty be studied as they really are.

Relief from this circumscribed and superficial view of weighty men is to be had by close inquiry into the lives of successful men with whom we are in daily contact.

Looking to one such character that interested us some years ago, and still interests, I shall refer to the qualities of his character, while desiring to have it impersonal to the man himself.

First of all, he realized early in life the essentialness of definite purpose—that purpose to be not only definite, but persistent. He allowed for obstacles, but determined not to be easily thwarted by them. He found them, too. Not least among them were the opposing judgments of men, together with the discouragement of sometimes being misunderstood by people of hasty opinions, such as men of affairs never fail to encounter. His maxim in such cases was: "What another man's hand finds to do, that let him do. If he likes and the dislikes, the opinions and actions of other men are to interrupt and confuse mine, I can accomplish nothing; but if I forge ahead, I shall at least be true to my purpose and my hope to win."

This made him single-handed, and thus he has continued.

Firmness and obstinacy are severely incompatible, yet they are parallel lines in close proximity to each other, and it is easy to throw the switch between them. Good judgment is the only safeguard against this danger. He had the safeguard. In dealing with men he has manifested something of Richelieu's course, which was: "First, all means to conciliate; failing these, all means to over-ride." This is strength.

Strength, by no means, deprives a man of the two qualities which should attend it—tolerance and equity. Possessed of these, this man, pursuing his resolute way, has many times made foes friends, all the while enlarging his own perspective as a man of will, of action, scrupulous of his obligations, and not too severe on others.

The course of such a man cannot end in failure, and, if his ultimate objects be good, considerable certainty surrounds their attainment. So it is with him. Along with his successful attributes he has carried, as all men do, handicaps; yet "when his sixth age shifts into the lean and slippered pantaloons," the wail of failure cannot molest his strong composure, nor dread of public judgment restrain him from well deserved pride.

RHEUMATISM | CATARRH — DIS EASES CURED BY B. B. B.

It is the deep-seated, obstinate cases of catarrh and rheumatism that B. B. B. (Botanic Blood Balm) cures. It matters not what other treatments doctors, sprays, liniments, medicated air blood purifiers, have failed to do, B. B. B. always promptly reaches the real cause and roots out and drives from the bones, joints, mucous membrane, and entire system the specific poison in the blood that causes rheumatism and catarrh. B. B. B. is the only remedy strong enough to do this and cure and so there can never be a return to the symptoms. Don't give up hope, but try B. B. B. (Botanic Blood Balm) or 3 Bs.

For sale by druggists and Howard Gardner in Greensboro, at \$1 per large bottle, or 6 large bottles (full treatment) \$5. To prove our faith in B. B. B. we will send a trial bottle free to sufferers, so they may test the remedy at our expense. Address Blood Balm Co., Atlanta, Ga.

The claim of other cough medicines to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employee of Bartlett & Dennis Co., Gardiner, Me. He says: 'I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the store of Mr. Houlehan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I got a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines.' For sale by C. E. Holton.

WITHOUT AN OWNER.

Texas Railway That Is Not Controlled by Capitalists.

Wrecked by Floods and Deserted by Stockholders Since the Galveston Storm—Receiver Unable to Vacate.

A railroad without an owner and without means of support—a railroad that cannot pay expenses and which cannot be abandoned—is one of the novelties presented by Brazoria county, Tex., as a consequence of the Galveston storm, says the Philadelphia Enquirer. The Velasco Terminal railway runs through one of the most fertile valleys in the United States and enters one of the safest harbors on the gulf coast, yet there is no one who wants to buy it. The fact that the master commissioner offered the road at public sale at Angleton, Tex., last September without receiving one bid for it seems almost incredible, yet such was the fact.

The Velasco Terminal Railway company was chartered in 1892. The charter granted the company the right to construct a railroad from Velasco, on the Mexican gulf coast, westward through the state. Only 22 miles of the road, running from Velasco to Chenango junction of the International and Great Northern, was constructed and put into operation.

Two large hotels, a suburban belt line, an electric light plant, large warehouses and wharves were constructed by a company before dissensions began and work was stopped in 1895. Since that time the improvements have been allowed to go to ruin. Under the laws of Texas the stockholders could not abandon the railroad after it had ceased to pay, and as long as it remained in their hands an imperative obligation to the state to maintain operations, although they were thereby involved for the payment of an annual deficit. Up to the time of the storm they had complied with this statutory obligation and annually remitted from the east the sums necessary to continue operation, hoping against hope that some fortuitous circumstance would revive activity at Velasco.

Unfortunately, the flood which last year swept down the Brazos valley practically wrecked the road from end to end. Then the bondholders, who had received absolutely no interest upon their investment during all the eight years, appealed to the courts and had the road placed in the hands of a receiver. The receiver was appointed and authorized by the court to issue his certificate for the necessary money to rehabilitate the road, which he accordingly did, and placed the road in a fair condition.

R. C. Aluff was appointed a master in chancery of the road, and nearly \$600,000 worth of claims were presented to him to pass upon, the major part of which were secured by liens upon the road. In order to build the road and place it in operation after the overflow it was necessary for the receiver to issue certificates for \$40,000. At the June term the court foreclosed on all liens, and directed that the road be sold for their satisfaction, giving priority in the matter of payment to the certificates, allowances and cost of court, which aggregated about \$50,000, the minimum price which the master commissioner was allowed to receive.

Pursuant to the instructions of the court, the first Tuesday in September, 1900, the master commissioner offered the property for sale at public auction. Negotiations were being made by one of the large state systems for its purchase, but owing to the failure to obtain certain landed concessions at Velasco, the directors declined to buy, and the master commissioner received no bids. The sale was then postponed one week. Four days later the Galveston storm swept the gulf coast, carrying death and destruction in its path. Still, week after week, for two months, the road was publicly cried for sale and no one was found to take it at a price one-fourth the valuation fixed by the state railroad commission and less than the actual cost of the steel.

The road under the management of the receiver, which has been able and economical, has been unprofitable. The inability to float certificates is now exhausted and yet the receiver is bound under his appointment and bond to operate the road. The court's order directs the master commissioner to sell the road and yet he cannot find a buyer. The law forbids the abandonment of the road and dictates that the rails shall not be removed. This legal puzzle is now presented to the court for solution.

Rats Like Sweet Potatoes.

A veteran provision dealer is authority for the statement that nothing will draw rats like sweet potatoes. They seem to be able to smell this toothsome vegetable from afar and will come in droves wherever sweet potatoes are stored. In proof of his assertion this dealer said that he never kept potatoes in his cellar with other vegetables, but placed

them up in a dry loft. Having a large cold storage chest in his cellar he had previously tried the experiment of placing a basket of sweet potatoes inside, and although the rats could not puncture the walls they did gnaw the woodwork of the chest, trying to get at the tubers.—N. Y. Sun.

MODERN BOILER MAKING.

The Old Way with Its Deafening Noise Has Been Almost Entirely Done Away With.

We prepared for deafening sounds. But there was comparatively little noise, for the old boilermaker who hammered away all day on rivets in Baldwin's at least, a thing of the past. His place has been taken by powerful machinery that presses instead of hammering. We began, says Theodore Waters in Frank Leslie's Popular Monthly, to get a larger glimpse of the machine-like precision of the works, and from what we saw it would seem that the making of a locomotive boiler is the work of a few minutes. For instance, we went over to where a big machine was drilling holes round the edges of some large slabs of metal. The slabs measured a dozen feet each way and were an inch thick, yet the drills went through several of them superimposed, as though they were so much felt. While we looked, a traveling crane came rapidly up the aisle and stopped by the machine. Two flat hooks, like those used to lift barrels came down from above. A workman caught one on the edge of a metal sheet which had been drawn from the machine. He dexterously threw the other hook across to the opposite side of the sheet, and it caught neatly over the edge. Immediately the crane lifted the sheet into the air and carried it swiftly down the shop, perhaps a hundred feet, to where a rolling machine was working. One edge of the sheet was dropped into the rolling machine, which bit it as between teeth. The crane hooks slipped off and the sheet began to slide in between the rolls. There was a heavy grinding sound, and then we could see the sheet coming up from the rolls. It was no longer flat, but curved into a great tube. Workmen slipped it out of the end of the rolling machine, and another crane came along, picked it up, and started away with it. We followed after.

WOMEN ON HORSEBACK.

They Learn to Ride Very Readily and Are Noted for Their Courage.

The number of women, especially in the upper circles of the east, who have taken to equestrianism is increasing very rapidly. It has been noted as a somewhat singular fact that the average woman becomes a more proficient rider than the average man, for she has naturally lighter hands and is so enabled to obtain more satisfactory results. Riding, like all other exercises that require both grace and skill, is more easily learned while young, and this aptitude of the youngsters has been a source of mortification to many of their elders who could not grasp the knack of riding so easily. However, but few women who once begin to learn to ride ever give it up either from distaste or inability to master the difficulties of learning. Generally women are very courageous riders, and it is a fact that a well-bred horse never lacks courage when a woman is on his back.

Stout women experience the greatest difficulty in learning to ride, and seldom become graceful or competent riders. No stout woman should attempt to ride at other gait than the walk or canter, and it is at this latter gait that all women look their best. Beginners, as a rule, are always nervous and haunted by a fear of falling, and even the more experienced riders do not seem to enjoy riding a horse that rears, and, in fact, this is quite the worst fault a horse can have.

EARTH GOES SOARING.

An Extraordinary Natural Phenomenon Observed Recently in Italy.

Count Amerigo, a scientist of unquestioned standing, sends an extraordinary story of a natural phenomenon from Pavia. He reports that in the district of Cervarese, near Padua and Vicenza, there occurred last August a simple but most strange earth convulsion. It began about the 3d and lasted until the 23d of the month and was seen by laborers working in that part of the district known as "Traverso del sabion." Here and there clods of earth, propelled by some unseen force, jumped up into the air to a height of from six to ten feet in the form of a parabola, falling again on the ground three or four yards away.

This phenomenon was most frequent during the hottest hours of the day, from nine till four o'clock, and occurred about every ten minutes in various places simultaneously. It ceased upon the advent of cold rains. The clods had an ordinary appearance. One which was taken away for examination weighed almost four pounds and was almost circular in shape.

STUDENTS TURN BEGGARS.

Play the Part of Mendicants at Hartford City, Ind., and Get Arrested.

Police officers at Hartford City, Ind., the other night arrested as suspicious characters two young men who were begging on the streets. A number of complaints had been made to the officers by persons who had been accosted in remote parts of the city. After a watch had been kept on the men until a late hour they were arrested. They proved to be students at Taylor university at Upland, seven miles west of Hartford City, and explained their actions by stating they were out on a lark. Being strangers here they decided to try the experience of street begging. They begged piteously to be released, and after proving their identity, were allowed to return to the college.

Want to Be Doctors.

There are 23,778 young men in the medical colleges of the United States, less than half as many—11,874—in the law schools, and only about one-third as many—8,261—in the theological seminaries.

SALE OF LAND TO CREATE ASSETS.

By virtue of a decree of the Superior Court made in the special proceeding entitled R. L. Wyrick administrator of N. E. Wyrick, et als, vs. Jacob E. Wyrick, et als, the undersigned commissioner appointed will make sale of the land hereafter described, to the last and highest bidder, at the court house door in Greensboro, N. C., on Monday, the 25th day of March, 1901, for cash, the said land which is situated in Madison township, adjoining the lands of Brooks Wyrick and others, and bounded as follows, to wit: Beginning at a stake on the north bank of Reedy Fork, George Fulton's corner; thence north with Fulton's line forty poles, to a black oak; thence east with said Fulton's line 160 poles to a post oak, Jacob Wyrick's line; thence south with said Wyrick's line, 62 poles to a persimmon tree on the north bank of Reedy Fork; thence up the said river with its various meanders to a holly on south bank of said river a short distance below the great falls; thence south 8 poles to a white oak, Wm Clymer's line; thence west with said Clymer's line 13 poles to a white oak on bank of said river; thence up said Reedy Fork to the mouth of the Long branch; thence south on west side of said branch 8 poles to a white oak; thence west 10 poles to a hickory; thence north 8 poles to a birch on south bank of said river; thence to the beginning, containing 52 acres, more or less.

This includes on Reedy Fork one of the finest water powers in this section of the State.

LAND SALE

North Carolina, } In Superior Court
Guilford County, } Before Clerk.

Laura S. Kerr, Executrix of Jno. W. Kerr, deceased, and Hattie C. Kerr, et al. (infants) by their next friend, A. W. Cooke, Ex Parte.

By virtue of the power conferred upon me, and direction given in a certain order of the Superior Court of Guilford county made by the Clerk thereof in the above entitled cause, I will, as Commissioner of said court, sell at the court house door in Greensboro, N. C., on Monday, the 4th day of March at public auction, to the highest bidder, the following described lot and parcel of land situated in the city of Greensboro, and described as follows, viz: One lot located on the north side of West Whittington street, fronting said street 78 feet and running back 148 feet, upon which is situated two houses for residence, one a single room house and the other a double room house, sufficiently far apart as to accommodate different tenants, and adjoining the lands of Henry Williams on the east, F. M. Keith on the west and the land of the petitioners on the north. There is also a fine well of water upon said lot. Terms of sale, one-half cash, the remaining payment to be made in six months, deferred payment bearing interest from date of sale. This the 2nd day of February 1901.

WINE OF CARDUI

HEALTHY OLD AGE.

LARUS, BENTON CO. ARK., Aug. 4.
I am 49 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.

MRS. E. B. TOWNSEND.

Wine of Cardui

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand.

NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary, which gives consumption its chance. And infection plants it.

Between the two, the crop is a big one: about one-sixth of the human race, so far as is known.

We suppose it needn't be 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

The care saves life in all ways; the emulsion is specially aimed at the lungs, beside its general food-effect.

We'll send you a little to try, if you like.
SCOTT & BOWNE, 409 Pearl Street, New York.

A new remedy for biliousness is now on sale at C. E. Holton's drug store. It is called Chamberlain's Stomach and Liver Tablets. It gives quick relief and will prevent the attack if given as soon as the first indication of the disease appears. Price, 25 cents per box. Samples free.

BAD BLOOD,
BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions. SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

to have been
first proves antiquity
to have become
first proves merit.

We stand on our merit. If our work by mishap should fail we stand ready to make it good. Our prices are tailors. If you want to save your teeth for less money than it is costing you, call phone 261. Yours,
